

Given:

- All Conduits are 3/4" rigid
- Bend Radius for Conduit A will be 12 inches
- Spacing will be 2" between conduits
- Calculate the radius for conduit B, C, D, E
- Start mark will be 24" from end of conduit

Conduit	Conduit O.D.	Spacing	Radius	Developed Length	Number of Shots	Spacing Between Shots
A	1.05	2.00	12.00			
B	1.05	2.00				
C	1.05	2.00				
D	1.05	2.00				
E	1.05	2.00
