

NIETC Safety Toe Boot Claim Form

Eligibility Requirements: This program is open to all IBEW 48 members and NECA-IBEW contractors working within our local jurisdiction. Safety toe boots must be required by the client or general contractor to work on the specific job site listed on this form. Material handlers who are required to wear safety toe boots by their employer may submit a reimbursement claim regardless of job site requirements.

Claim form fields must be completely filled out or the reimbursement request will not be approved. A legible copy of the receipt is required. Members may submit a claim once every 2 years and will receive 50% of the purchase price of the boots alone, not to exceed **\$200**. A signature from the employer's representative who authorized the boot purchase is also required. If you have any questions contact me at 503.501.5066 or bmoreland@nietc.org.

Your name _____ Date _____
